

WILL IDENTIFY  
HIS ASSAILANTS

Man Assaulted and Driven Out of Bisbee Offers To Reveal the Names.

Columbus, N. M., Aug. 8.—(Continued) The man who reached Columbus Monday with the story that he was beaten and driven across the border into Mexico by men who seized him in Bisbee last Thursday, is recovering from his experience and today said he would be able to identify two of his alleged assailants. He says he knows their names and will give them to the authorities. He is staying at the camp of the refugees departed from Bisbee July 12.

It was asserted at the camp that hardly a man has left the camp within the last week and that most of those remaining would continue to remain until some definite action is taken regarding their dispositions.

One of the refugees was severely assaulted yesterday when he upset a cask of boiling water on his feet. A Mexican member is suffering from a severe attack of pneumonia.

Three men, thought to have been "kenned" from Bisbee, were reported from Columbus, N. M., recently, reliable business men returning from Columbus that night said. The men were told to leave the town where the alleged I. W. W. members and sympathizers departed from Bisbee after a crowd had gathered around them in the main street of Columbus. One was said to have been a New Mexico official and none were from Bisbee.

**Fearful Kidnaping.**  
The reason given for the departure was the fear that an effort might be made to kidnap one or more of the alleged I. W. W. members in Columbus, one of the local business men said, and guards were watching the street where W. B. McHenry, the Bisbee attorney, was staying, following the hanging of Frank H. Little at Jute, they said.

**All Trains Searched.**  
All trains from Arizona are searched for possible "kenned" as the Arizona deputy sheriffs are called.

**50 Percent Increase Here.**  
The recent taking of the census being set in the Columbus camp showed that about 50 percent of the deportees were Mexican-born and less than 20 percent were native born Americans.

One of the I. W. W. members in the camp admitted going to Bisbee after his arrest and said he had been drafted and would not plead his exemption. Of the 1917 was entered the camp on July 14 but 1912 remained.

MYERS FAILS IN  
PEACE ATTEMPT

Clifton Strike Situation is Unchanged; Italians Dropping Out.

Clifton, Ariz., Aug. 8.—No result toward peace has followed the week spent here by federal mediator J. S. Myers. He did his best, the workmen appeared to care little even for the success of their own claims. Several notes passed through Mr. Myers. In one of them the general grievance committee stated that "the workers of this district feel that as a duty we owe to the nation and the state we should set aside all personal considerations and in our humble way do everything in our power to assist in a successful prosecution of the present war." But these local sentiments were not followed up by action and the situation today is in the same apathetic condition known for weeks.

However, it is possible that had continuing been offered by the workmen they could hardly have been accepted by manager Norman Carmichael, of the Arizona Copper Co., who has in the entire matter into the hands of his superiors in El Paso.

**Carmichael Reviews Conditions.**  
Mr. Carmichael has made up a review of local conditions, particularly estimated with those at Miami. In the latter camp were employed 225 men, who produced in May 17,147,532 pounds of copper, a daily average of 147 pounds to the man. The three companies in the Clifton-Morenci district in the same time employed 215 men and produced 2,822,000 pounds of copper, equivalent to 13 pounds per man per day. In the way of tonnage Miami was producing 2,822,000 tons per day by 1915 men in the mine.

Locally the three companies earned \$710 tons, taken up by \$720 tons, at only 14 tons per man per day. It points out also that in 1914, when the men were paid \$1.50 per shift their ore production was much heavier than in 1917 when the average wage at the time of the strike was \$1.12.

Concretely in Miami, one-half the number of miners produce more than twice as much copper as has been earned out in Clifton and Morenci.

**Italians Drop Out.**  
The Italian element among the strikers is believed to be dropping out of the mine, but refused to perform night duty and is looking toward resumption of work. A three-man committee of strikers have left the district and are likely to secure of their own expenses departed for Denver.

BISBEE BARS  
FIVE UNIONISTS

Refuses To Allow Alleged Leaders To Remain in the District.

Bisbee, Ariz., Aug. 8.—A committee of five appointed by the convention of the Arizona Federation of Labor to investigate the Bisbee deportations of July 12, was met by citizens at Bisbee seven miles from Bisbee today and turned back.

The committee was advised it could not enter Bisbee. Citizens told the labor men the government had several agents in the Warren district investigating and that Wiley J. Jones, attorney general, also was conducting an investigation. The committee was supported by the convention at Clifton yesterday which instructed it to report its findings at once.

The committee was composed of Bert Davis, J. J. Croft, Phil Galen, J. M. Vargas, E. T. Morley and John Murray. As soon as they were notified they could not proceed into Bisbee, the labor men returned to Douglas in their automobiles.

**UNIONIST COMMITTEE IS ON WAY TO BISBEE**  
Clifton, Ariz., Aug. 8.—A committee of five members of the Arizona Federation of Labor, which is in convention here, is on the way to Bisbee where it should arrive this evening, to investigate the deportations from there last month.

The committee was appointed by telegram to Gov. Thomas E. Campbell to protect the committee. The men are expected to be proceeding to Bisbee by automobile.

Bisbee has been informed of the coming of the committee, and the attitude of the residents of the town is unfavorable.

It is stated on behalf of the convention, the deportations from here last month.

**SPAIN IS THREATENED WITH BIG RAILWAY STRIKE**  
(Continued from page 1.)

Spain last night published a statement "blaming the company and government because of an agreement which they have not performed to the prejudice of the railway employees."

The syndicate sustains the strike call for August 14, but agrees to enter conference with the company if the government will recognize the legal status of the strike during the negotiations. The council of ministers has sanctioned the establishment of a national emergency law and has studied measures to prevent the interruption of traffic and acts of disorder pending the strike.

BOOSTING FOR  
DEFENCE LEAGUE

Well Known Citizens Favor Police Chief's Movement For Protection.

Approval has been voiced by a number of prominent men at the movement begun by police chief J. J. Zaleski, to form a city defense league. The expenditures of some of them follow:

"I will only be too glad to join the new league," said J. A. Krummer, "I think that a movement like this is what El Paso has needed for many years and will be glad to give all the support that I can."

"I will be there," when the chief called," said J. A. Krummer, "I think that a movement like this is what El Paso has needed for many years and will be glad to give all the support that I can."

"I will be there," when the chief called," said J. A. Krummer, "I think that a movement like this is what El Paso has needed for many years and will be glad to give all the support that I can."

MISSOURI PACIFIC BOOSTS  
EL PASO WITH POST CARDS

The Missouri Pacific railway, which recently opened offices in El Paso, is circulating the city with a series of post cards showing views in the business section of El Paso. The series consists of 25 post cards, each of which has been printed and distributed in large quantities all over the United States.

They are a very wide circulation in a number of ways, one of them being through the distribution of the cards to the business section of El Paso.

Mr. Stone, passenger traffic manager of the road, caused the cards to be issued.

**TWO NEW S. P. TICKET MEN HERE TO HELP AGT. MONROE**

Harry A. Mason and Eugene W. Walcott are the two assistants selected by James Monroe, city ticket agent for the southern railway, to assist in El Paso, to fill the vacancies created last week by the resignation of two employees.

Mr. Mason has had considerable experience in the passenger department of western railroads and recently came to El Paso from the office of the Denver & Rio Grande at Salt Lake City, Utah. Among the railroads with which Mr. Mason was connected are the Northern Pacific, Great Northern, Missouri Pacific and Canadian Pacific.

**PREPARE FOR OFFERING SECOND LIBERTY LOAN**

New York, Aug. 8.—Preparations for the offering of the second Liberty loan, to be offered to the public some time early in the fall, were begun today by the general loan committee of the second Liberty loan district.

Although the date the loan will be offered to the public and the rate of interest it will bear have not been definitely decided upon, it was said it would be about September 15 and not October 15, as at first reported.

**MCDONOUGH, OF TENNIS**

**PAMEL JOHN NAVY**

Los Angeles, Calif., August 8.—Marion E. McDonough, known among tennis followers as the "California comet" winner of the Davis cup singles matches in 1914 and three times holder of the national singles and doubles championships, has been named as the next training station at San Pedro, Calif., it became known today.

**DARTY TRUCK LOST ON ROAD**

Ford truck bearing El Paso license number 881 was reported in the ditch about 10 miles from El Paso, Texas, Wednesday morning, driven with its right front wheel smashed and engine dead. It is said to belong to the G. N. V. Co. No word could be learned of the cause of the accident, or if anyone was hurt.

DRAINAGE WORK  
BEING HELD UP

Washington, Aug. 8.—The drainage project will be stopped immediately and will be indefinitely postponed, pending the raising of financial means by the water improvement district for the prosecution of the work or the changing of the appropriation bill for the drainage work by congress, according to information received by L. M. Lawson, reclamation project manager from Washington.

The action was taken by the reclamation service because of the lack of money, due to the exhaustion of the temporary fund advanced by the directors of the water district and the inability of the government to appropriate money for the project.

**Says Provision Unsafe.**  
"This provision in the bill is unsafe," said J. A. Smith, "the first is to leave short time bonds, which have been issued by the officials of the department of the interior, and the second is to change the law or to eliminate the provision, or the two methods the latter would require the smaller amount of time, providing complete action immediately."

**Two Methods Feasible.**  
"At present there are only two feasible methods for the continuation of the work," said Mr. Smith. "The first is to leave short time bonds, which have been issued by the officials of the department of the interior, and the second is to change the law or to eliminate the provision, or the two methods the latter would require the smaller amount of time, providing complete action immediately."

**Drainage Author of Bill.**  
A. P. Davis, chief engineer of the reclamation service, drew up the bill and when he inserted that particular clause he was under the impression that it would not affect the El Paso valley and that they had already formed an organization which had not the case, it was reported. The statement was made by an El Paso man who had been in communication with the drainage project.

**Will Keep Short Bonds.**  
The department of the interior realizes it is said, that the members of the drainage project will be kept in the work until such time as the law is changed, which would be a comparative small amount as compared with the loss of time in the drainage work and would only continue until such time as the drainage work was resumed by a change of the bill.

**Will Keep Short Bonds.**  
The department of the interior realizes it is said, that the members of the drainage project will be kept in the work until such time as the law is changed, which would be a comparative small amount as compared with the loss of time in the drainage work and would only continue until such time as the drainage work was resumed by a change of the bill.

TEXANS FAVOR  
WORLD LEAGUE

House Pauses in Impeachment Work to Endorse President's Proposal.

Austin, Texas, Aug. 8.—A resolution offered by representative Willford and 15 others was adopted today in the house, endorsing and commending the proposal of president Wilson and other leading statesmen.

What when a certain nation has been crushed and humiliated, the self governed people of the free nations of the world shall form a union of league of nations and cooperate with their might and power to insure in future the observance of peace and justice and in guaranteeing that the world shall be a better place than it is now.

**House Passes Appropriation Bill.**  
The house today passed a resolution endorsing the proposal of president Wilson and other leading statesmen.

The house committee of appropriations of the senate bill, the total amount of the appropriation is \$10,000,000, but the house refused to adopt the amendment.

**The Munson-Veatch Controversy.**  
The Munson-Veatch controversy regarding the governor to submit the subject of repealing the laws creating the new state normal and the West Texas A. & M. college, came up on pending business, but before action could be taken, the time for commencing the investigation of the charges against the governor arrived, and the resolution action was over.

**University Bill Introduced.**  
What the senate met today, the university of Texas appropriation bill carrying an appropriation of \$1,618,000 for the next two fiscal years was introduced, this being the same bill voted by governor Ferguson.

**Impeachment Hearing Resumed.**  
Sessions of state officials with the house committee of the charges against the governor for the third day of the investigation into the charges preferred against governor James M. Ferguson by speaker F. O. Jones.

**Woodman Case Reviewed.**  
Reference to transactions by Woodman, through the Texas state bank and the El Paso National bank of El Paso, was followed by the reading of documents relating to the action taken by the governor in his investigation into the charges against the governor.
